Community Council

Summer is over and the Community Council is again back meeting on the second Thursday of the month. Like Fife Council we had a break in August and did not meet though we would have done if there had been any urgent business.

On 10 September your councillors began the first of the 2015-2016 session. Our agenda held the usual topics: planning applications, reports from the community police, community groups, the community council's treasurer and a NQ councillor in which he advised that he was taking personal action to ensure that the Community Council is able finally to erect a village Christmas tree.

The poor state of many of the plants in the village tubs was noted. It seems that this was because nobody had thought to water them, during the long dry spell. That may not be a problem in the coming months, but if it is, it will be seen to. We also heard updates on the Pontoon planning application (which the Community Council had objected to in July) and which went to the District Planning Committee later in the month.

The Summer appears to have been a very inactive time as there was nothing to report on the bridges and tourism other than the wonderful news, which we all knew, that the railway bridge is now a World Heritage Site. There was, however, nothing to report about the proposed Network Rail visitor centre.

Our meeting in September was very varied and interesting and made us realise how much goes on in the village. We were told about such diverse events as the Darjeeling Himalayan Railway taking over the station for a weekend (19 and 20 September) and proposals to commemorate on 20 June 2016, the death in 1916 of Lt. G C O Paton at Port Laing. Scottish Natural Heritage gave us advice about the large number of ticks in the village (a thermal imaging survey to assess numbers of deer in the village will take place in November 2015) and we were informed about a new management plan for the site of special scientific interest at St Margaret's Marsh which is looking for community involvement.

There were nine members of the public at the meeting outnumbering councillors by 50%. It is fantastic that villagers are

coming to the meetings, but it would be even better for the village if some villagers were prepared to volunteer to become councillors.

For more information about the community council and the latest draft minutes please look at www.nqcc.co.uk

The next meeting of your community council is Thursday 12th November 2015 at North Queensferry Community Centre at 7.30pm

Championing the Forth Bridge...the sixth world heritage site in Scotland

Not only has the Forth Bridge - a wonder of Victorian engineering - celebrated its 125th anniversary in style, but it's also made it on to the prestigious list of the most breath-taking sights in the world, becoming the sixth world heritage site in Scotland.

A wonderful gateway to the Kingdom of Fife, the Forth Bridge is a unique and impressive site which already attracts visi-

tors. With interest set to grow, the increased level of tourism to the area will provide a huge economic boost to the whole of Fife.

Fife Council are looking for local passionate people to become part of a network of Ambassadors to help champion the Forth Bridges and surrounding area. You may have a strong connection with the history of the Forth Bridge, or simply love sharing news and positive stories with others.

Iconic, historic and dynamic, the spectacle of the Forth bridges is a wonder of the modern world. Who wouldn't want to be part of sharing that story?

If you're interested, please contact John Murray by emailing john.murray-EP@fife.gov.uk

Gala

Is it really 4 months since Gala Week? This year was a resounding success, partially due to the glorious weather for the events during the week (not so much on Gala day itself but that seems to be the norm these past few years) but also down to villagers taking part in the events as well as the hard work of the committee.

There are so many people to thank; from the bunting hangers – and the bunting repairers (due to the wind), the Friends of the Gala who stepped in to ensure that we had enough stewards for the cycle and running races to those who helped put up the marquee (and take it down). Once again the tea ladies did a sterling job – selling their wares as well as those that were kindly supplied by amateur but in no way amateurish bakers from around the village.

Gala day itself went extremely well despite the unseasonal weather but it didn't dampen too many spirits. The Albert Hotel laid on a fabulous picnic bag for the children and there was plenty activities for young and old.

Ann Gordon, stepped down as Chairperson at this year's AGM and we are sorry to see her go as her input into the Gala has been immense. We did manage (just) to fill all the roles required to keep the Gala going but we do rely heavily on the support of the village. We are calling out again for people to help for next year's Gala as well as at fundraising events. If you don't feel as though you can commit to being on the committee but would like to help or give input then we welcome your support. You can contact us via email northqueensferrygala@hotmail.com.

St Margaret's Marsh

Management and Steering Group.

The new B981 takes us closer to the St Margaret's Marsh, located between the new bridge approach, Port of Rosyth and the proposed Scarborough Muir Waterfront development. The area has been designated by Scottish Natural Heritage as a Site of Special Scientific Interest. It is important as the largest reed bed in the Firth of Forth providing habitat for breeding birds such as sedge warbler and reed bunting. The site also includes salt marsh, grassland and scrub habitat. As recently as 1970 there were open areas of water but levels have since dropped resulting in a decline in the condition of the marsh. Installation of new sluices to improve the irrigation of the marsh is nearly complete. Transport Scotland is now the owner of the land and a new management plan is being formulated by Scottish Natural Heritage. The area has potential for new footpaths but these need to be

The next main event we'd like your support for is the annual Christmas Fayre. This year we've had to move venue due to refurbishment at the Queensferry Hotel so we're up at the Community Centre. Save the date (and your cash!) for the Thursday 12 November. Times are 6.30pm until 9pm and there is an entrance fee of £5 for which you get a glass of fizz and a mince pie or shortbread. Please note that all proceeds go to the Gala fund. Teas and coffee will also be available. Please buy your tickets in advance if possible as we need to gauge numbers – we don't want to run out of the fizzy stuff! There will be over 30 tables selling wonderful Christmas gifts so it's the ideal time to pick up some early Christmas presents.

We really do hope you can join us.

Toddlers Group

The toddlers group meets most Thursdays at NQ Community centre between 9.30 – 11.15am. We are always pleased to see new faces and those that are visiting us after a bit of a break! All families are welcome, with children from newborn to pre-school age. We provide a safe environment for your children to play, equally important is the adults corner where you can relax with a drink and have a chat. A £1.50 charge covers refreshments, including a snack for the children.

Hope to see you there!

Coming soon.....Halloween Party on 29th October and Santa Claus flies in to our Christmas party on 17th December.

Everyone is very welcome!

sympathetic to wildlife. A Steering Group is being formed and there is an opportunity for representa-

tives from North Queensferry to attend to act as a link with the village. Should you wish to take part, please contact either Lin Collis lin.collis@gmail.com or David Shields davidshields@livingwater.org.uk for a drawing of the proposed works which can be sent by email.

North Queensferry Celebrations

Saturday 3 October

If you had gone to the Marina on Saturday (3 October) you would have seen village residents celebrating with North Queensferry Community Trust which has just been awarded a fifty year lease from Fife Council for the West Bay and Marina.

In 2010 a community consultation on this area of the village identified clear support from village residents for a community run organisation to upgrade facilities for maritime activities and to improve the green space for everybody. The North Queensferry Community Trust was formed with membership open to all adult residents of North Queensferry and a Trust Board was democratically elected from this membership.

This celebration marks the fact that, with the signing of the lease, the Trust is finally in a position to begin putting into action plans to upgrade the area for all its users.

This is good because it takes a valuable community asset into the democratically accountable hands of village residents.

This is good because:-

- it allows, for the first time, long term stability of tenure for the Boat Club. Together, the Trust and Boat Club can plan for future improvements.
- it lets other community groups and users of the Marina to put forward ideas for sharing and using all the facilities.
- it protects the area and its natural environment from commercial development and will allow villagers and users to decide and monitor any changes and improvements.
- all income derived from the West Bay and Marina will be ploughed back into the area to improve the facility for all its users.

The long term aims of the Trust are to revitalise the working harbour, to enhance community life by creating a hub for marine activities and events and to offer green space and leisure facilities to locals and visitors in a beautiful and historically important setting facing on to the World Heritage Site, the Forth Bridge.

There were about eighty people at the marina looking at information and photos about the marina's history, finding out about future plans, putting forward ideas for future events, such as a local

market, and generally showing support. One person remarked "It's great to see the harbour busy and to find out about new opportunities for the area", while a person who enjoys kayaking welcomed the chance of new storage space for his kit which would save him using his car.

Taking over this lease puts North Queensferry at the heart of a growing movement across Scotland of local communities taking control of their vital land assets. North Queensferry

already owns its community centre and runs the railway station building and now the village is responsible for running its own harbour.

For more details and trust membership please contact nq.community.trust@gmail.com

North Queensferry Twinning with Hohoe in Ghana

Many readers will remember the article regarding the visit of Rev Hannah Ofori and Frederick Godsway from Hohoe in Ghana in September last year.

Our journey of friendship and cultural exchange with our twinned community in Hohoe continues and on Sunday 4th October 2015, we made a video recording of our Harvest church service which will be sent to them. At the same time, on the same day, they also recorded their service to send to us.

As part of the continuing development of our relationship, it has been agreed by the Church of Scotland to support another visit from North Queensferry to Hohoe for two people from the village. On this occasion it is planned that Rev Colin Alston and Anne Low will travel to Hohoe in Ghana in early April. As well as cementing our relationships with the good people of Hohoe they will be able to see for themselves the renovation work carried out on the school after the storm in July 2007, which destroyed several classrooms. You

may remember that the church, school and community raised £444 towards the repair of the school at that time.

A visit by two from North Queensferry to Hohoe, because the flights are classified as charity flights, allows each traveller to carry 2 cases of 23Kgs. This provides an ideal opportunity to transport much needed items such as childrens and adults flip flops, football strips and shorts, summer tee shirts large and small, pens, pencils and note books. In addition, old laptop computers which are in working order and suitably cleared of personal data can also be sent.

To facilitate the collection of such items suitcases are placed at the rear of the church and people are invited to drop their donated items into the cases after church on a Sunday.

As part of a fundraising exercise for the visit a Sunday brunch is being planned for 31st Jan in the church at 12.30. Suitcases will be available for filling at that event.

Should you wish any more information about any of the above please contact Douglas or Jan Short on 01383 416492.

Dunfermline & Inverkeithing

(Fundraising) Branch of the RNLI

would like to extend their thanks to the village for their donations in the door-to-door collection in June, we collected £428.26. In total £5,206.33 was donated from Dunfermline, Inverkeithing, Limekilns, North Queensferry, and Hillend. Thank you

Remembrance Sunday

This year's annual Service of Remembrance will be held at the Village War Memorial on Sunday 8th November, commencing at 1050 a.m. It is hoped that the Salvation Army Band will play for us and that tea and coffee will be available at the Albert Hotel after the service.

This is very much a whole community event, which has been well supported in the past and it is hoped that this year will be no exception. Should anyone wish to play an individual role at the ceremony, perhaps to read the Eulogy to the Fallen or to play a lament, please contact Brian Armstrong on 417429. He can also acquire Remembrance Crosses, should anyone wish to place one as a personal tribute to an individual or an association.

Pilates classes

Ferry Birds – May to Sept 2015

The **redshanks** in West Bay did their usual trick of disappearing in April and returning in July. The first I saw back were on the 7th of July and there were 6 there on the 18th. Last year the first I saw was on the 8th of July! Other regular happenings include the **eider ducks** with young appearing in West Bay in June and I then saw groups of young with female chaperones fairly often in West Bay, Port Laing and Inverkeithing Inner Bay. The gulls as usual took their toll, but I saw well grown young in various places locally and between Kinghorn and Kirkcaldy from the coastal path. I do a count every month along this bit of the coast and I counted over 100 adults and at least 30 young there in June.

The **common terns** again failed to nest on the Guvy pier. I saw a few flying around the pier in May, but no breeding attempts were made. This is the bad news but the good news is that Long Craig was home to many pairs and I counted about 100 birds there in July. There was great activity with adults arriving with a sand eel in their beaks in a continuous stream. Some **common terns** also nested on the wooden pier in Inverkeithing Inner Bay. **Sandwich terns** don't usually nest on Long Craig, but they come into our area later in the summer to feed up before they fly off to Africa for the winter. This year they turned up in the middle of July in good numbers in noisy groups often with an immature bird chasing an adult begging for food. The **Sandwich terns** stay around till later in the summer so the last **common tern** I saw was in Inverkeithing Inner Bay on the 25th of August while there were still **Sandwich terns** along the coast well into September.

The highlight of the uncommon birds seen was a **little egret** in West Bay on the 14th of August. It was literally a flying visit as by the time the observer had got his binoculars from his house it had gone! **Little egrets** are small white members of the heron family and have invaded England from the continent over the last 30 years. In the last 5 years a few have been seen in Scotland regularly with Aberlady Bay being one of their favourite places. A **whimbrel** was also seen in West Bay on the same date.

Other sightings of uncommon birds have included the **peregrine falcon** around the quarry on the 31st of July and a **raven** in the same place on the 18th

of September. Both these birds have bred in the quarry in recent years but are sometimes quite difficult to see. How the re-opening of the quarry affects them remains to be seen. I saw a flock of **kit-tiwakes** on the sea just east of the rail bridge on the 13th of August. They drew attention to themselves by calling out their name! Another autumn happening involves groups of **gannets**-mainly immature birds- which circle round in Inverkeithing Bay. I have only seen this once this year. It was on the 8th of September when about 30 birds were flying round.

Interesting sightings of our more familiar birds have included a few **house martins** feeding at the back of Port Laing on the 18th of June and a pair of **mute swans** in Inverkeithing Inner Bay with 5 well-grown young in July. On 3 occasions I have seen large disperse groups of **swallows** probably feeding up prior to their migration to South Africa. The first two were on the 14th and 18th of September between Jamestown and the water tank field and the third was over St Margaret's Marsh on the 28th. Another regular event this time of year is the **chiff-chaffs** which start singing again. It is not as persistent or as loud as in the spring and there was one at the north end of Port Laing on the 29th of September. This was the same place where I heard my first chiffchaff this year at the end of March!

The **field gentians** on the Carlingnose Point reserve reappeared this year. There were at least 100 plants on the reserve including several in the area at the top of the quarry. Why this should happen this year after a complete absence last year is a bit of a mystery. The **lesser meadow-rue** was again abundant around the rocky knoll and other plants such as **devils-bit scabious**, **kidney vetch** and **bloody cranesbill** did well. The **dropwort** again didn't show very well although there were several plants on Ferryhills. The annual cutting of the grassland at Carlingnose will be done in the next few weeks. This is to ensure that the **gorse** does not take over and the optimum conditions for these rare plants are maintained. The plan is to cut back more of the **hawthorn**, **gorse** and **cotoneaster** to enlarge the area of grassland to encourage the grassland plants even more.

Forth Bridge Hub

Since July the team of Linn, Christine, Alicia and Danielle have been working hard welcoming visitors and locals to North Queensferry train station café. Formerly known as Bridge the Gap it is now known as The Forth Bridge Hub and sells refreshments, home baking, light lunches and homemade soup, as well as providing tourist information for the many tourists visiting the village .

With the Forth Bridge receiving UNESCO World Heritage status earlier this year we believe that the station is the perfect location to welcome visitors to the village by public transport and help guide them around the various sites of interest as well as other local restaurants and cafés. Already we have welcomed visitors from Australia, Japan, America, Canada, India, Germany and of course from the home nations. The NQHT and the Fife Countryside Trust, and the Hub Team have also developed an app with St Andrews University for the village which is now available to download on Andriod and iOS. This will help guide guests around the village in a modern way and we are sure this will be a great help to guests over the next few years.

As the winter months approach however we have taken the decision to close as of Monday 12th October and will re-open from March 2016, with a full program of events for following spring / summer season. As an example the most recent event held on the 19th September where visitors could experience a Darjeeling Himalayan railway while taking advantage of being able to experience the Forth Bridge from the top was a great success and we look forward to continuing with similar events next year.

For further information on the Forth Bridge Hub or if you would like to hire the Station for an event please visit www.forthbridgehub.co.uk or check out our social media pages on twitter and facebook.

Village Coffee Morning
